Kinedyne Announces Second Annual College Scholarship Program

Two awards of \$2,500 each to be presented to winners from Virginia, Ohio state trucking associations

BRANCBURG, NJ (April 20, 2010) – Kinedyne has launched its second annual *Kinedyne Cares* College Scholarship Program, which in 2010 will provide a \$2,500 award to one applicant each from the Virginia and Ohio state trucking associations.

To enter, applicants must submit an entry form and write an essay, of 500 words or less, addressing the topic "How the trucking industry has had a positive impact on my life." To qualify, candidates must be members in good standing of the Virginia Trucking Association or Ohio Trucking Association. Applicants may also be directly related to a member of either association. In addition, candidates must currently be enrolled in, or in the process of registering to attend, a college or university. The submission deadline is May 31, 2010.

"All of us affiliated in any way with the trucking industry understand it will be some time before it recovers fully," says James Klausmann II, the company's Executive Vice President. "Families are faced with many financial hardships, not the least of which is funding a college education. We initiated this scholarship program last year as part of our *Kinedyne Cares* program, to help provide some assistance to deserving families within our industry. The program was very well received in its first year and we're excited to be in a position to continue supporting people associated with the trucking industry."

The *Kinedyne Cares* initiative was launched in 2008 as part of the company's ongoing effort to give back to the trucking industry and drivers employed in the transportation sector.

An entry form is available online at <http://tinyurl.com/ScholarshipForm>

About Kinedyne Corporation

Founded in 1968, Kinedyne Corporation is the world leader in manufacturing and distributing cargo control products for the transportation industry. The company maintains the top market share in several industry sectors through the development and engineering of a high-quality product offering, which features more than 5,000 items, including multiple patented products. Kinedyne products service users that include OEM's, fleet operators and independent owner/operators. The company serves several markets including Heavy Duty Trucking, Government & Military, Farm & Agricultural, Moving & Storage, Automotive and Recreational Vehicles.

Headquartered in Branchburg, NJ, the company operates facilities in Lawrence, KS, Prattville, AL, and Reno, NV. In addition, it is the parent company for a worldwide operations group including Kinedyne Canada Ltd. (Canada) and Nantong Kinedyne Ltd. (China), and its affiliate Sistemas Kinedyne, S.A. (Mexico).
