## **Kinedyne Canada Launches New Catalogue**

**Includes 60 pages of new, exciting cargo control products**

**TORONTO, CANADA (April 29, 2010)** – Buying cargo securement equipment in Canada just got easier.

Kinedyne Canada Limited has introduced the 2010 edition of its catalogue of cargo control products. The new release will streamline and enhance the ordering process and offer more solutions for customers. At 60 pages in length, the catalogue displays high-resolution, full-color images and features detailed product information on all new and existing items.

“We know that people who purchase Kinedyne products are extremely busy,” says Robert Spooner, Director of Sales for Kinedyne Canada Limited. “They don’t have much time to spend determining which strap or chain will be most effective to secure their loads. That is one of the main reasons why we created the new catalogue. It’s designed to give our customers the ability to select the products they want faster, providing them with more time to spend on building their business.”

Some of the new, innovative offerings highlighted in the catalogue are:

- **Cast Mandrel Winches** – New for 2010, this upgrade to the company’s line of winches was developed in conjunction with several trailer manufacturers and sets a new standard in both quality and durability. One of the new benefits of the winch is the Industry’s First “3 Year Warranty” for all cast mandrel winches.
- **E/A Series Beams** – Recent upgrades to this product line include a redesigned beam head, which features a KwikLatch release mechanism and a Keyhole slot. When used with the E-Key fitting and logistic track, the Keyhole slot provides a convenient storage solution for the beams on the trailer wall.
- **StrapPak™** – Created with safety in mind, this accessory to a 2” ratchet strap provides an inexpensive, effective way to store the excess webbing that remains after securing a load.
- **Half Barrels - Bulk Chain** – An ideal way to save money by offering smaller quantity options of the most popular sizes of chain including 1/4”, 5/16”, and 3/8” diameter.

Additional information on the new Kinedyne Canada catalogue is available by calling (800) 268-3530 or by visiting the website, at [www.kinedynecanada.com](http://www.kinedynecanada.com).

### **About Kinedyne Corporation**

Founded in 1968, Kinedyne Corporation is the world leader in manufacturing and distributing cargo control products for the transportation industry. The company maintains the top market share in several industry sectors through the development and engineering of a high-quality product offering, which features more than 5,000 items, including multiple patented products. Kinedyne products service users that include OEM’s, fleet operators and independent owner/operators. The company serves several markets including Heavy Duty Trucking, Government & Military, Farm & Agricultural, Moving & Storage, Automotive and Recreational Vehicles.
